

Chief Operating Officer ' Multi-location healthcare services Our client is a leading multi-location healthcare services company in the dermatology space seeking to hire a new Chief Operating Officer to support their growing organization. Our client is backed by a prominent private equity sponsor that has supported the company's expansion through acquisition transactions and organic projects. The business plans to further expand the breadth and depth of its services to multiple states. The individual sought will be an accomplished executive, manager or director who is experienced with operations roles within the healthcare services space and is willing to roll up their sleeves to accomplish the goals of the organization. This role will lead and manage the Practice Managers and will report to the Chief Executive Officer to ensure the development and execution of growth strategies and oversee the daily operating activities, including revenue and growth, delivery of care and customer service. This position is also responsible for managing budgeted expenses and cost, to deliver planned monthly, quarterly and annual financial results. It is expected that the role will also include process improvements and operational benchmarks at each of the clinic locations. An attractive base salary plus bonuses based on performance are on offer.
